

IQUEST DIRECTOR
LAURA PETERSEN, MD, MPH, FACP

IQUEST DEPUTY DIRECTOR
DREW A. HELMER, MD, MS

EXPERT AND STAKEHOLDER FORUM

Members ensure progress regarding milestones in our strategic plan and provide guidance for challenges we face.

COMMUNITY ENGAGEMENT COUNCIL

Community and Veteran Members provide feedback to leadership and investigators to enhance the effectiveness of patient-centered research.

CENTER STAFF COUNCIL

Consists of administrative and/or project members from each of the scientific programs, Education & Training, and Administrative & Operations cores. Members serve to facilitate communication between leadership and administrative and project staff and serve as an anonymous conduit of concerns to leadership.

THE LEADERSHIP ADVISORY COUNCIL

Consists of representatives from each of the scientific programs and the Methodology & Analytics core who serve to facilitate communication between leadership and faculty to advise leadership from the faculty perspective and to serve as an anonymous conduit of faculty concerns to leadership.

SCIENTIFIC PROGRAMS

CORE RESOURCES

BEHAVIORAL HEALTH

Mark Kunik, MD, MPH, Chief

Members study innovative interventions and modes of care delivery with the goal to actively disseminate and implement research findings into health care.

METHODOLOGY & ANALYTICS

Shubhada Sansgiry, PhD, Chief

Members provide methodological and analytical support during grant application design and writing. They assist in developing and carrying out analytic plans, participating in pilot projects, and actively participating in publications as both the contributing and primary authors.

CLINICAL EFFECTIVENESS & POPULATION HEALTH

Terri L. Fletcher, PhD, Chief

Members study the distribution and determinants of health-related states, events and outcomes in specific populations, and compare diagnostic, therapeutic, and health-delivery strategies in routine clinical care with the goals of improving health outcomes.

ADMINISTRATIVE & OPERATIONS

Shannon Kenyon, MBA, Chief

Members provide resources and expertise that further the objectives of IQUEST and its stakeholders in the areas of finance, human resources, information technology, grants, and facilities.

IMPLEMENTATION & INNOVATION

Kyler Godwin, PhD, MPH, Chief

Members translate health care innovations within learning health care systems, advance and apply concepts and methods of implementation science, and lead healthcare improvement locally and nationally.

EDUCATION & TRAINING

Natalie Hundt, PhD, Chief

Members supervise postdoctoral fellows from several fellowship programs; manage seminars in HSR foundations in quality, effectiveness, safety and career development; and serve as a coordinating center for the VA Quality Scholars Program.

HEALTH POLICY, QUALITY & INFORMATICS

Hardeep Singh, MD, MPH, Co-Chief
Jessica Davila, PhD, Co-Chief

Members conduct multidisciplinary research and use findings to reform clinical practice, redesign care processes, and inform policy development to improve quality and safety of electronic health record-enabled health care.
